UWAGA / REMARQUE / NOTE / ATATTENZIONE / HINWEIS / OPMERKING

Instrukcja, którą posiadacie Państwo w ręku pokazuje krok po kroku w jaki sposób dokonać właściwego montażu basenu. Dołożyliśmy wszelkich starań, aby przygotować materiały jak najbardziej odzwierciedlające stan faktyczny i wygląd poszczególnych elementów. Jednak proszę pamiętać, że wszelkie rysunki mają charakter poglądowy i istnieje możliwość, że poszczególne elementy dostarczone w Państwa zestawie w rzeczywistości mogą odbiegać wyglądem od ich wizualizacji graficznej zawartej w instrukcji.

(PL)

Le manuel que vous avez entre les mains montre étape par étape comment assembler correctement la piscine. Nous avons fait tous les efforts pour préparer les documents reflétant autant que possible l'état réel et l'apparence des éléments particuliers. Pourtant, il faut savoir que tous les dessins sont présentés à titre de référence et qu'il est possible que les éléments singuliers fournis dans votre kit puissent différer en apparence de leur visualisation graphique incluse dans le manuel.

(FR)

This manual presents the correct assembly procedure for the swimming pool, step by step. We have undertaken all possible efforts to make sure that the materials are as close to the actual items and present their layout as closely as possible. Please remember, however, that all figures are indicative only and individual elements delivered in your set may be different than their graphical visualisations presented in the manual.

(GB)

Die Ihnen vorliegende Anleitung erläutert Ihnen Schritt für Schritt, wie das Schwimmbecken korrekt montiert wird. Wir haben alles daran gesetzt, die Unterlagen bestmöglich an den tatsächlichen Zustand und das Aussehen der einzelnen Teile anzupassen. Bitte bedenken Sie jedoch, dass alle Zeichnungen nur zu Anschauungszwecken dienen. Deshalb kann es sein, dass einzelne Teile in Ihrem Set anders aussehen, als in der graphischen Visualisierung in der Anleitung.

(DE)

Deze handleiding presenteert stap voor stap hoe u het zwembad op de juiste manier kunt monteren. We hebben er alles aan gedaan om een handleiding te maken die een realistisch beeld weergeeft van de montage en onderdelen. Houd echter wel rekening mee dat alle tekeningen alleen ter referentie dienen en dat het mogelijk is dat de afzonderlijke elementen in uw set kunnen afwijken van de grafische tekeningen in deze handleiding.

(NL) Laat kinderen niet zonder toezicht!

Standardowa gwarancja - 8 lat

Warunek : coroczne zabezpieczanie struktury drewnianej środkami do drewna dostępnymi na rynku.

Wydlużona gwarancja - 10 lat

- (PL)** Warunek: coroczne zabezpieczanie struktury drewnianej (wszystkich widocznych/dostępnych elementów) dedykowanym środkiem rekomendowanym przez producenta - LAZURA OLEJNA (zapytaj swojego dostawcę o szczegóły). Stosuj się do zaleceń zawartych na etykiecie produktu. Warunkiem uwzględnienia gwarancji jest zachowanie kopii dokumentów zakupu wskazanego środka do konserwacji od pierwszego roku użytkowania.

Standard warranty - 8 years

Conditions: Maintain annual conservation of the wooden structure with wood protection agents available on the market.

Extended warranty - 10 years

- (GB)** Conditions: Maintain annual conservation of the wooden structure (all visible/available elements) with a dedicated agent recommended by the manufacturer - NATURAL OIL WOODSTAIN PROTECTION (ask your supplier for details). Follow the instructions on the product label. For warranty recognition, keep copies of the purchase documents of the indicated wood protection agent from the first year of use.

Standard Gewährleistung - 8 Jahre

Bedingungen: Pflegen Sie die Holzstruktur jährlich mit auf dem Markt erhältlichen Holzschutzmitteln.

Erweiterte Gewährleistung - 10 Jahre

(DE) Bedingungen: Pflegen Sie die Holzstruktur (alle sichtbaren / verfügbaren Elemente) jährlich mit einem vom Hersteller empfohlenen Holzschutzmittel - NATURAL OIL WOODSTAIN PROTECTION (fragen Sie Ihren Lieferanten nach weiteren Informationen). Befolgen Sie die Anweisungen auf dem Produktetikett. Bewahren Sie Kopien der Kaufdokumente für das angegebene Holzschutzmittel ab dem ersten Jahr der Verwendung für die Gewährleistung auf.

Standaardgarantie - 8 jaar

Voorwaarden: Onderhoud jaarlijks de houten structuur met op de markt verkrijgbare houtbeschermingsmiddelen.

Verlengde garantie - 10 jaar

(NE) Voorwaarden: Onderhoud jaarlijks de houten structuur (alle zichtbare / beschikbare elementen) met een door de fabrikant aanbevolen houtbeschermingsmiddel - NATURAL OIL WOODSTAIN PROTECTION (vraag uw leverancier voor meer informatie). Volg de instructies op het productetiket. Bewaar kopieën van de aankoopdocumenten van het aangegeven houtbeschermingsmiddel vanaf het eerste jaar van gebruik voor de garantie.

(PL) Uwaga : Brak regularnej konserwacji struktury powoduje utratę gwarancji !

(DE) Bitte beachten Sie: Wenn die Struktur nicht jährlich gewartet wird, erlischt die Gewährleistung!

(GB) Please note: Lack of once a year conservation of the structure causes loss of warranty!

(NL) Let op: Ingebrekestelling van jaarlijks onderhoud aan de constructie veroorzaakt verval van garantie!

(NL) Optie

Zatyczka do dyszy – w celu przygotowania basenu do sezonu zimowego (w szczególności przy ryzyku zamarznięcia wody), zastosuj zatyczkę do dysz napływowych, odcinając dopływ wody do zestawu filtracyjnego. **Pozostaw dyszę w basenie, zamontuj zatyczkę pod wodą.** Należy pamiętać również o odłączeniu zestawu filtracyjnego od źródła wody i dokładnym osuszeniu dyszy od strony zewnętrznej. Zaleca się także, aby z pompy jak i dołączonego filtra piaskowego na okres zimy (miejsca gdzie występują mrozy) usunąć pozostałości wody, w innym przypadku zamarzająca woda może dokonać zniszczenia całości zestawu.

(FR) Bouchon pour la buse de refoulement – afin de préparer la piscine pour l'hiver (en particulier en cas de risque de gel de l'eau), veuillez utiliser le bouchon spécialement fourni avec le skimmer et destiné à fermer l'accès de l'eau au système de filtration. **Veuillez laisser la buse de refoulement dans la piscine, montez le bouchon sous l'eau.** Il est également indispensable de déconnecter le système de filtration du point d'arrivée d'eau et de s'assurer que la partie de la buse de refoulement placée à l'extérieur de la piscine soit parfaitement sèche. En plus, il est conseillé de vider le reste de l'eau se trouvant dans la pompe et le filtre à sable surtout en période de gel. L'eau qui gèle à l'intérieur du système de filtration peut causer des dégâts et des dysfonctionnements.

(GB) Rubber plug- in order to prepare the pool for the winter season (especially if there is a risk of freezing) put a plug into the inlet to shut off the access of water to the filtration system. **Inlet must remain in the pool. Fix the plug under water.** Remember to disconnect the filtration set from the pool and dry the inlet (the part of inlet which is outside of the pool). For the winter season, it is recommended to get rid of water remaining in pump and sand filter, otherwise freezing water can cause devastation of the whole set.

(DE) Stöpsel für die Düse – den Pool für die Wintersaison vorbereiten (insbesondere wegen der Gefahr des einfrierenden Wassers), verwenden Sie dazu die Zuflusssdüse. Schneiden Sie die Wasserzufuhr zu dem Filtersystem ab, nachdem Sie den Filter abgetrennt haben, sollten Sie auf die gründliche Trocknung der Düse von außen achten, und dass die Filteranlage von der Wasserquelle abgetrennt ist. **Lassen Sie die Düse in den Pool, installieren Sie den Stöpsel unter dem Wasser.** Es wird auch empfohlen, aus dem Sandfilter sowie der Pumpe restliches Wasser zu entfernen (Stellen wo Frost entstehen kann), da sonst das gefrierende Wasser das komplette Filtersystem beschädigt.

(NE) Rubberen stop - om de toegang van de inlaat (jet straal) voor het filtersysteem af te sluiten ter voorbereiding op het winterseizoen (vooral als er een risico bestaat op bevriezing van water). **De inlaat moet in het zwembad blijven. Bevestig de stop onder water.** Let op dat u de het filtersysteem loskoppelt van het zwembad en de achterkant van de inlaat laat drogen en achterblijvend water te verwijderen, ter voorkoming van beschadiging in het filtersysteem door bevriezing van water.
